(Arrest Program)**

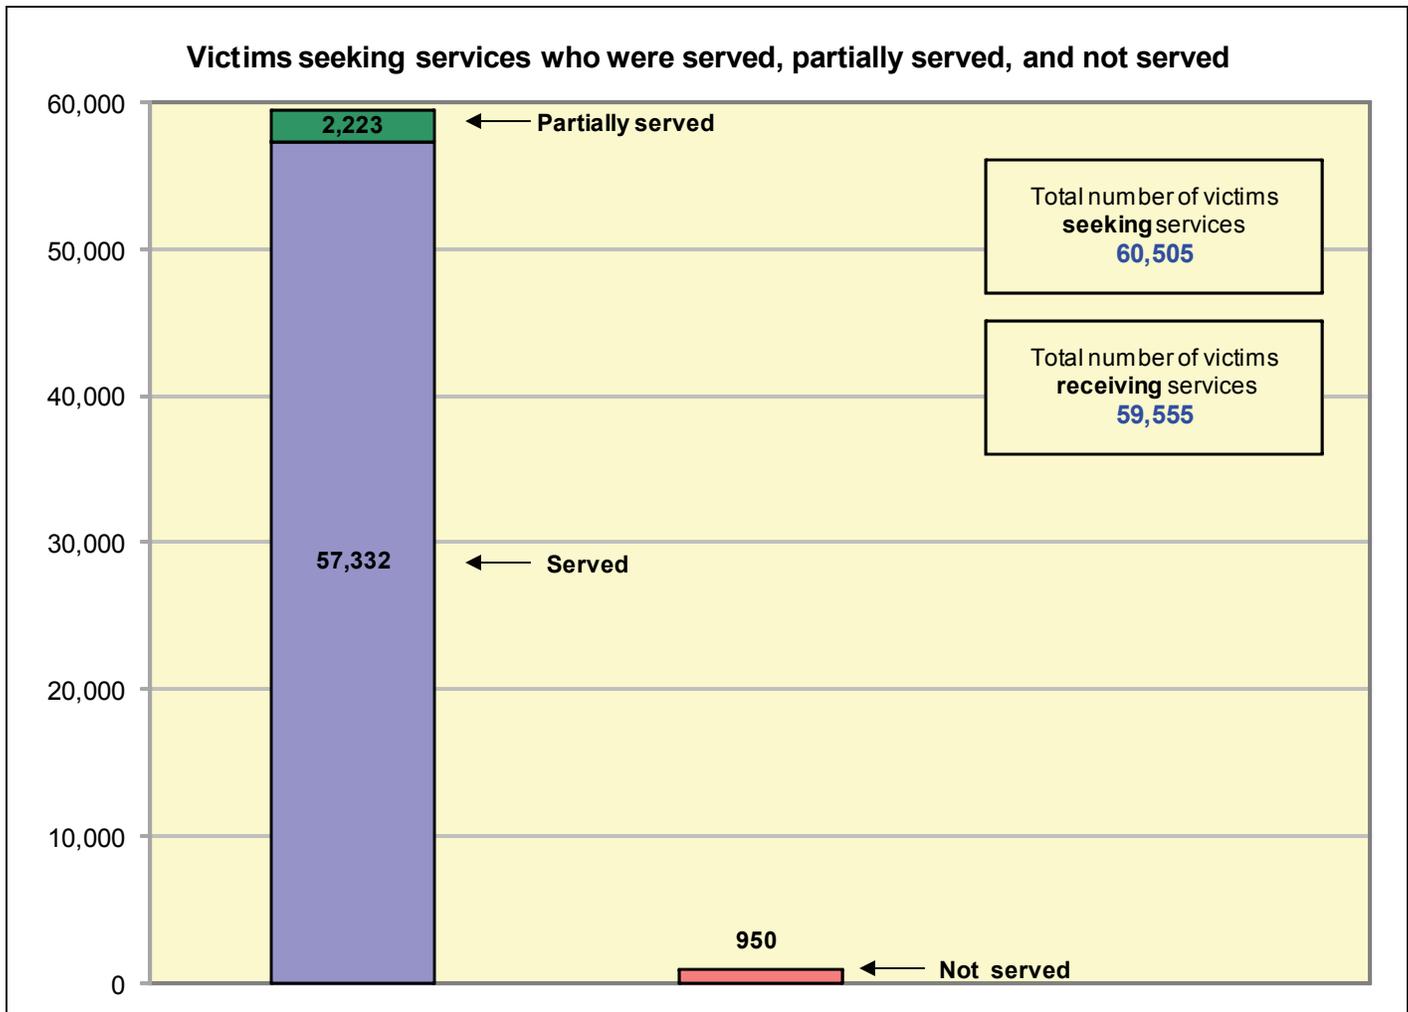

**Report Period: January 1-June 30, 2009**

This program challenges the whole community to communicate, identify problems, and share ideas that will result in new responses and the application of best practices to enhance victim safety and offender accountability.

<sup>1</sup>. Percentages are based on victims receiving services for whom this information was known.

<sup>3</sup>. Because victims may be represented in more than one of these categories, or not at all, the total for this category may be higher or lower than the total number of victims served.

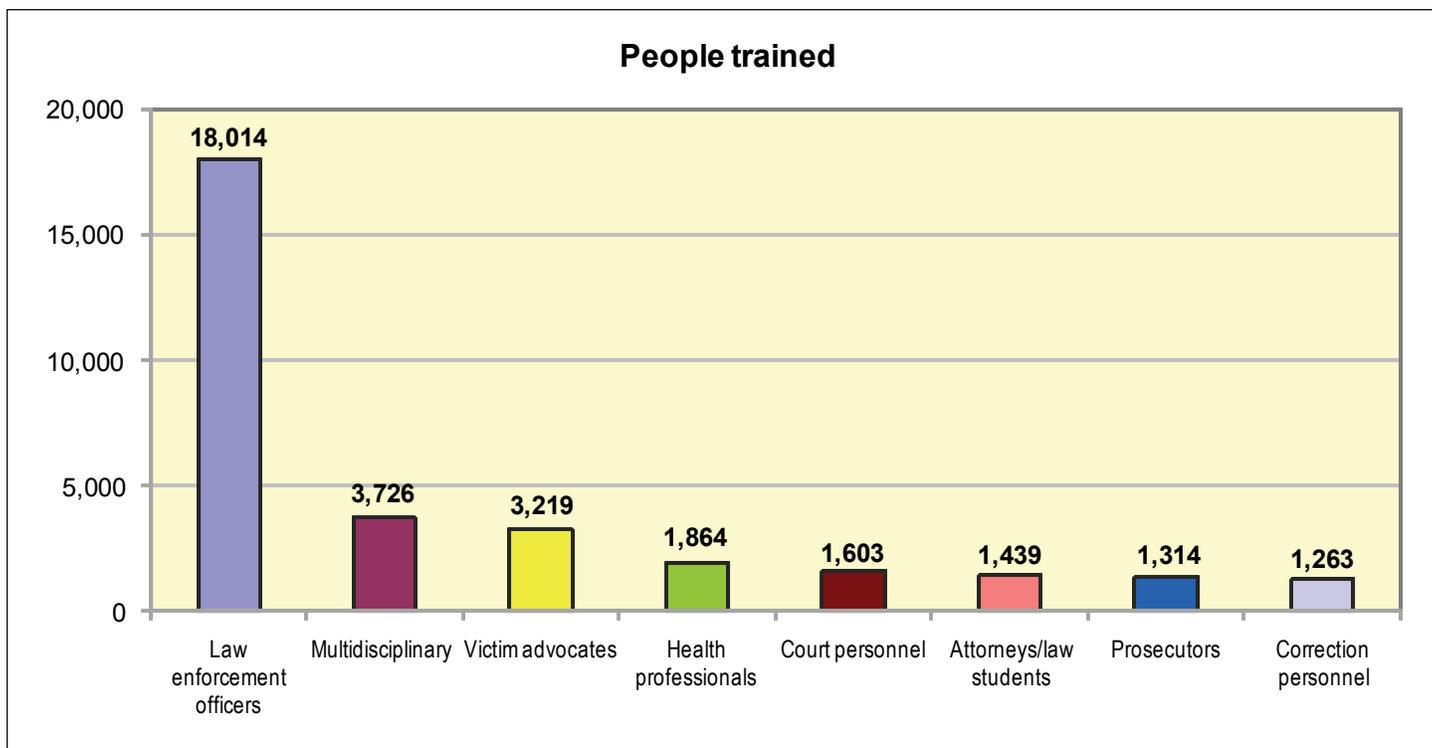

<sup>4</sup>. Victims may have been abused by more than one offender and/or may have experienced more than one type of victimization, so the total for each victimization category may be higher than the total number of victims served in each of those categories.
