

**Office on Violence Against Women
Discretionary Grants
Grants to Encourage Arrest Policies and Enforcement
of Protection Orders Program
(Arrest Program)**

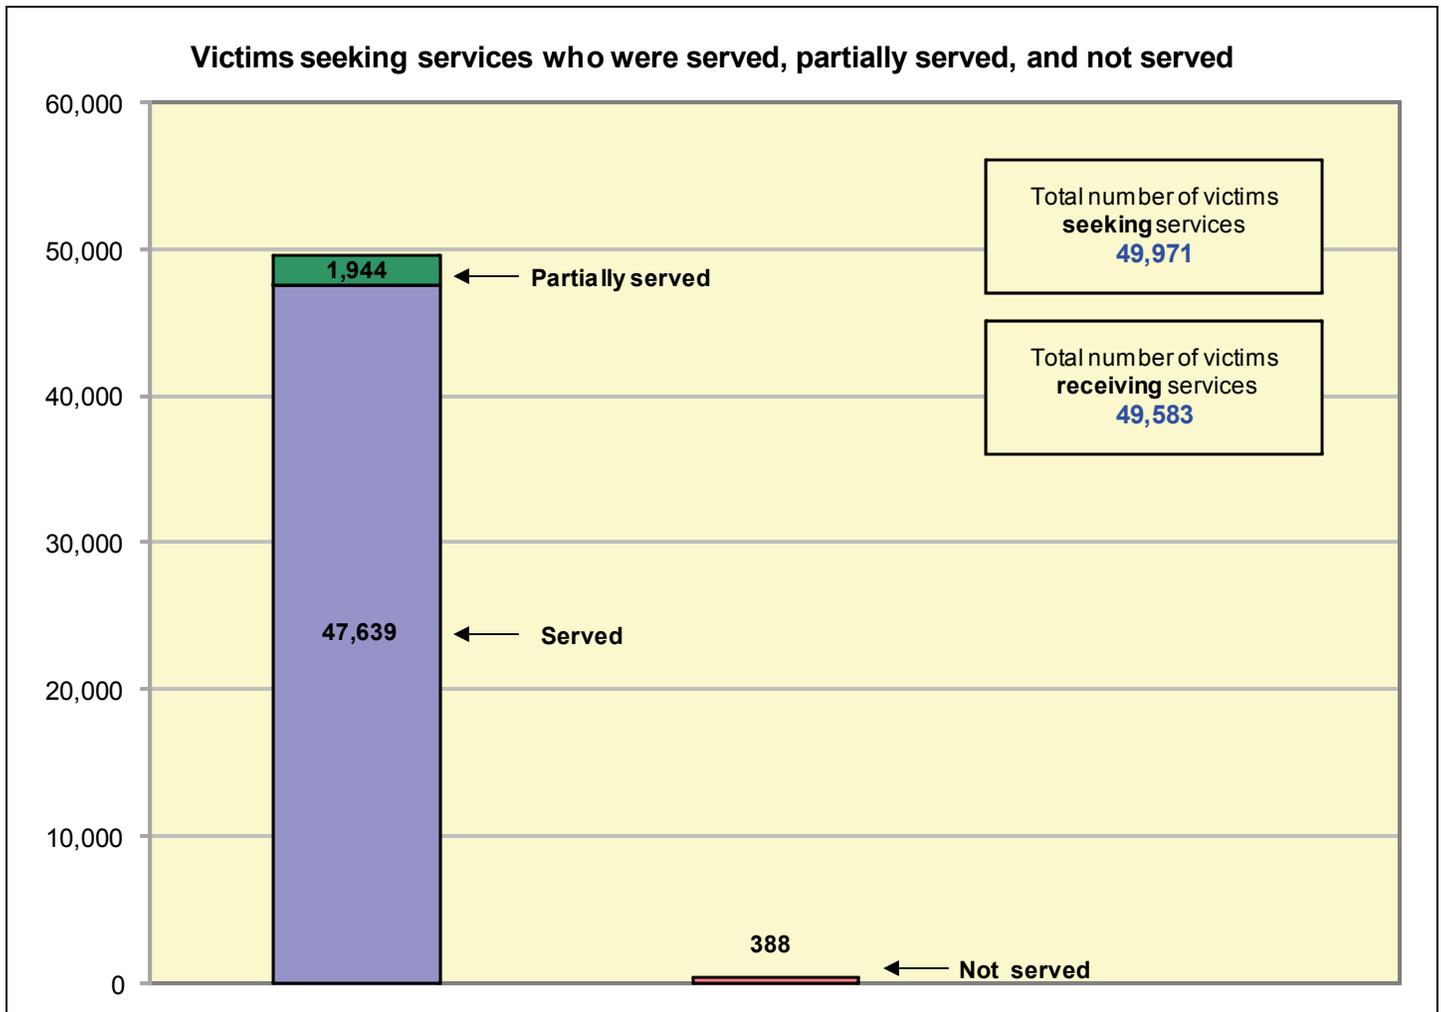

Report Period: July 1-December 31, 2008

The purpose of the Arrest Program is to encourage state, local, and tribal governments and state, local, and tribal courts to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law requiring coordination with nonprofit, nongovernmental victim advocates and representatives from the criminal justice system. This program challenges the whole community to communicate, identify problems, and share ideas that will result in new responses and the application of best practices to enhance victim safety and offender accountability.

¹. Percentages are based on victims receiving services for whom this information was known.

². Some victims may identify with more than one race/ethnicity, so the total number reported in race/ethnicity may be higher than the total number of victims served.

³. Because victims may be represented in more than one of these categories, or not at all, the total for this category may be higher or lower than the total number of victims served.

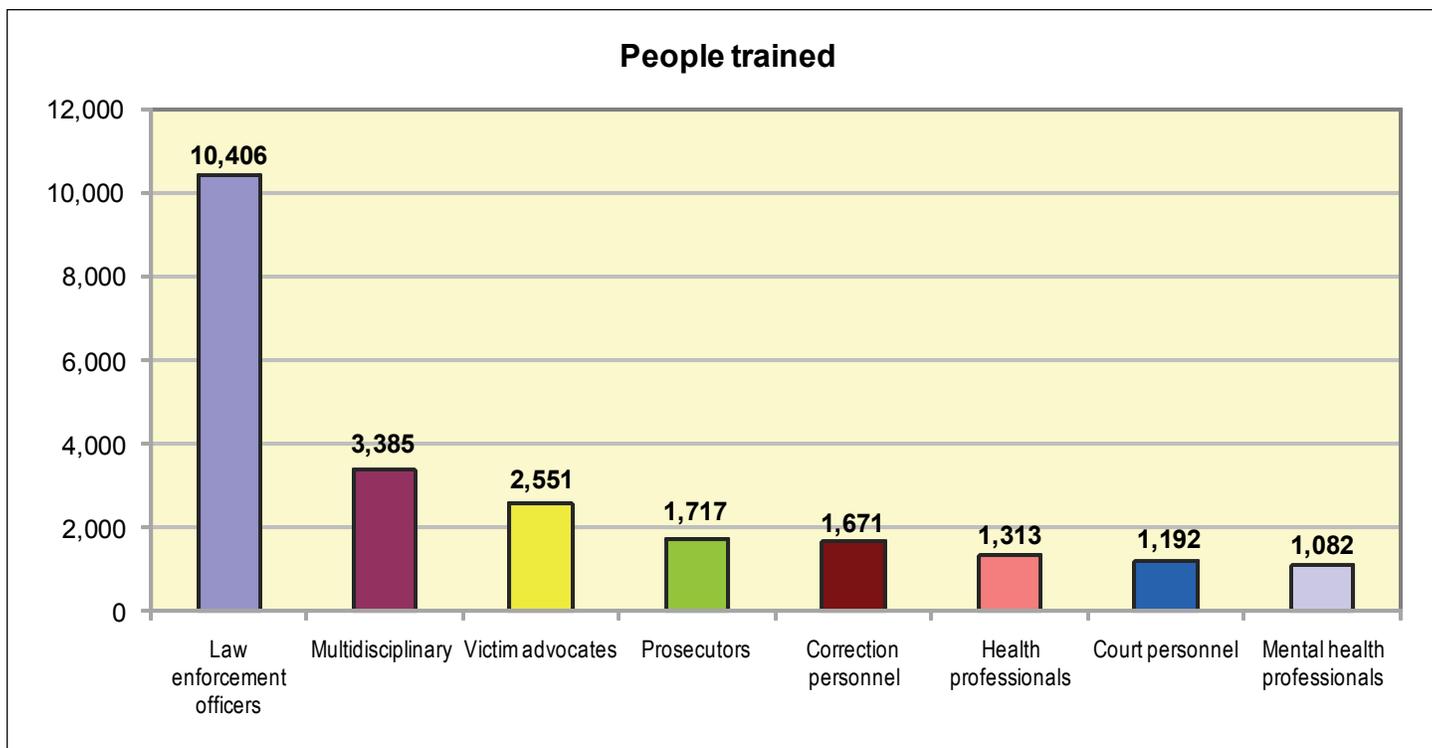

⁴. Victims may have been abused by more than one offender and/or may have experienced more than one type of victimization, so the total for each victimization category may be higher than the total number of victims served in each of those categories. Percentages are based on the total number of known relationships in each victimization category.
