¹⁷ Percentages are based on victims/survivors receiving services for whom this information is known.

¹⁸ Some victims/survivors may identify with one or more race/ethnicity, so the total number of victims/survivors reported in all categories of race/ethnicity (including unknown) may be higher than the total number of victims/survivors served.

¹⁹ Because victims/survivors may be represented in more than one of these categories, or not at all, the total for victims/survivors reported in all categories of other demographics may be higher or lower than the total number of victims/survivors served.

²⁰ Victims/survivors may have been abused by more than one offender and/or may have experienced more than one type of victimization, so the total number of relationships for each victimization category may be higher than the total number of victims/survivors served.
