

The purpose of the LAV Program is to strengthen civil and criminal legal assistance for victims of sexual assault, domestic violence, dating violence, and stalking through innovative, collaborative programs. These programs provide victims with representation and legal advocacy in family, immigration, administrative agency, or housing matters, protection or stay-away order proceedings, and other similar matters. The LAV Program is intended to increase the availability of civil and criminal legal assistance in order to provide effective aid to victims who are seeking relief in legal matters arising as a consequence of abuse or violence.

³ Percentages are based on victims/survivors receiving services for whom this information was known.

⁴ Some victims/survivors may identify with more than one race/ethnicity, so the total number reported in race/ethnicity may be higher than the total number of victims/survivors served.

⁵ Because victims/survivors may be represented in more than one of these categories, or not at all, the total for this category may be higher or lower than the total number of victims/survivors served.

⁶ Victims/survivors may have been abused by more than one offender and/or may have experienced more than one type of victimization, so the total for each victimization category (when unknowns are included) may be higher than the total number of victims/survivors served in each of those categories. Percentages presented here are based on the total number of known relationships in each victimization category.
