³ Percentages are based on victims/survivors receiving services for whom this information was known.

⁴ Some victims/survivors may identify with more than one race/ethnicity, so the total number reported in race/ethnicity may be higher than the total number of victims/survivors served.

⁵ Victims/survivors may have been abused by more than one offender, so the total (when unknowns are included) may be higher than the total number of victims/survivors reported as served. Percentages presented here are based on the total number of known relationships.

⁶ Categories are rounded to the nearest whole number and only categories with at least one full FTE after rounding are included.
