------------------------------	---

Victim Services: STEP Program grantees provided services to **172** victims/survivors of sexual assault, domestic violence, dating violence, and stalking, and to **52** youth indirectly exposed to sexual assault, domestic violence, dating violence, and stalking to help them become and remain safe from violence.

Number of grantees using funds for victim services: **5** (56% of all grantees reporting)

¹ This report contains selected data submitted by STEP Program grantees in semi-annual progress reports.

² Throughout this document, the sum of percentages may not equal 100 due to rounding.

³ Percentages are based on victims/survivors or youth indirectly exposed to violence seeking services.

Victim services and demographics: STEP Program grantees provide an array of services to victims/survivors of sexual assault, domestic violence, dating violence, and stalking, and to youth indirectly exposed to violence. These services include victim advocacy (actions designed to help victims/survivors obtain needed resources or services), counseling, crisis intervention, and legal advocacy (assistance navigating the criminal and/or legal system). Victims and youth indirectly exposed to violence also receive safety planning, referrals, and information as needed.

Victims/survivors served or partially served by type of victimization:

- Domestic violence: **101** (59% of those receiving services)
- Sexual assault: **43** (25%)
- Dating violence: **20** (12%)

³ One grantee reported numbers that reflect community-wide data because numbers from the schools/school district were unavailable, which causes some categories to be inflated.

⁴ Some victims/survivors may identify with more than one race/ethnicity, so the total number reported in race/ethnicity may be higher than the total number of victims/survivors served.

⁵ Because victims/survivors may be represented in more than one of these categories, or not at all, the total reported for this category may be higher or lower than the total number of victims/survivors served.

⁶ Victims/survivors may have been abused by more than one offender and/or may have experienced more than one type of victimization, so the total for each victimization category may be higher than the total number of victims/survivors served in each of these categories.

Youth Indirectly Exposed to Violence:

- Served: **52** (100% of those seeking services)

Number of youth indirectly exposed to violence receiving the following services:

- Victim/survivor advocacy: **52** (100% of those receiving services)

⁷ One grantee reported numbers that reflect community-wide data because numbers from the schools/school district were unavailable, which causes some categories to be inflated.

⁸ Some youth indirectly exposed to violence may identify with more than one race/ethnicity, so the total number reported in race/ethnicity may be higher than the total number of youth indirectly exposed to violence served.

⁹ Because youth indirectly exposed to violence may be represented in more than one of these categories, or not at all, the total reported for this category may be higher or lower than the total number of youth indirectly exposed to violence served.

¹⁰ Categories are rounded to the nearest whole number and only categories with at least one FTE after rounding are included.

Training: STEP Program grantees train professionals to improve the response to victims/survivors of sexual assault, domestic violence, dating violence, and stalking; to improve the response to youth indirectly exposed to violence; and to increase offender accountability.

Number of grantees using funds for training: **7** (78% of all grantees reporting)

Total number of people trained: **1,199**

Number of training events: **40**
