SEMI-ANNUAL PROGRESS REPORT FOR Education, Training, and Enhanced Services to End Violence Against and Abuse of Women with Disabilities

Brief Instructions: This form must be completed for each Education, Training, and Enhanced Services to End Violence Against and Abuse of Women with Disabilities (Disability Program) grant received. The grant administrator or coordinator must ensure that the form is completed fully with regard to all grant-funded activities. Grant partners, however, may complete sections relevant to their portion of the grant. Grant administrators or coordinators are responsible for compiling and submitting a single report that reflects all information collected from grant partners.

All grantees should read each section to determine which questions they must answer based on the activities supported under this grant during the current reporting period. Sections B and E and subsection A1 of this form must be completed by all grantees. In section D and subsections A2 and C1-C7, grantees must answer an initial question about whether they engaged in certain activities during the current reporting period. If the response is yes, then the grantee must complete the rest of that section or subsection. If the response is no, the rest of that section or subsection is skipped.

The activities of volunteers or interns should be reported if they were coordinated or supervised by Disability Program-funded staff or if Disability Program funds substantially supported their activities.

For further information on filling out this form, refer to the separate instructions, which contain detailed definitions and examples, illustrating how questions should be answered.

VICTIM SERVICES

Were your Disability Program funds used to provide victim services to victims/survivors during the current reporting period?

Check yes if Disability Program-funded staff provided victim services or if Disability Program funds were used to support victim services during the current reporting period. Report all victims/survivors served and victim services provided with Disability Program funds, whether by a victim services agency or victim services within law enforcement, prosecution, or the court system.

(Note: This section applies only to grantees who are in the implementation phase of their grant.)

Yes - answer questions 33-39

No - skip to section E

33. Number of victims/survivors served, partially served, and victims/survivors seeking services who were not served

<u>Please do not answer this question without referring to the separate instructions for further explanation and examples of how to distinguish among these categories.</u> (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each victim/survivor who was seeking or who received services during the current reporting period should be counted only once in that reporting period. For purposes of this question, victims/survivors are those against whom the sexual assault, domestic violence, dating violence, and/or stalking was directed. If the victim/survivor experienced more than one victimization, that person should be counted only once under the primary victimization. Do not report secondary victims here.)

| | Sexual Assault | Domestic violence/ dating violence | Stalking | TOTAL |
|--|-------------------|---------------------------------------|----------|-------|
| A. Served: Victims/survivors who re- ceived the service(s) they requested, if those services were funded by your Disability Program grant | | | | |
| B. Partially served: Victims/survivors who received some service(s), but not all of the services they requested, if those services were funded by your Disability Program grant | | | | |
| TOTAL SERVED and PARTIALLY SERVED (33A + 33B) | | | | |
| C. Victims/survivors seeking services who were not served: Victims/survivors who sought services and did not receive the service(s) they were seeking, if those services were funded by your Disability Program grant | | | | |

34. Reasons that victims/survivors seeking services were not served or were partially served (Check all that apply.)

| Reasons not served or partially served |

| Services inappropriate or inadequate for victims/survivors who are D/deaf or hard of hearing |
| Services inappropriate or inadequate for victims/survivors who have disabilities |

| Services not available for victims/survivors accompanied by male adolescents |
| Services not appropriate for victim/survivor |
| Transportation |
| Other (specify): |

35. Demographics of victims/survivors served or partially served

(Based on the victims/survivors reported in 33A and 33B, report the total numbers for all that apply. Because victims/survivors may identify in more than one category of race/ethnicity, the total for Race/Ethnicity may exceed the total number of victims/survivors reported in 33A and 33B. However, the total number of victims/ survivors reported under Race/ethnicity <u>should not be less than</u> the total number of victims/survivors reported in 33A and 33B. The total number of victims/survivors reported under "Gender" and the total number reported under "Age" should equal the total number of victims/survivors reported in 33A and 33B. Those victims for whom gender, age, and/or race/ethnicity are not known should be reported in the "unknown" category. <u>Do not report demographics for secondary victims.</u>)

| Race/ethnicity (Victims/survivors should not be counted more than once in either the category "American Indian or Alaska Native" or in the category "Native Hawaiian or Other Pacific Islander.") | Nu | mber of victims survivors |

36. Victims/survivors' relationship to offender by victimization

(For those victims/survivors reported as served and partially served in 33A and 33B, report the victim/survivor's relationship to the offender by type of victimization. If a victim/survivor experienced more than one type of victimization and/or was victimized by more than one perpetrator, count the victim/survivor in all categories that apply. The total number of relationships in the sexual assault column must be at least ; the total number in the domestic violence/dating violence column must be at least ; and the total number in the stalking column must be at least .)

| Victim/Survivor's relationship to offender | Number of victim/survivor relationships by victimization | | | |
|---|---|---------------------------------------|----------|--|
| | Sexual assault | Domestic violence/ dating violence | Stalking | |
| Current or former spouse or intimate partner | | | | |

| Relationship unknown | | | | |
| TOTAL | | | | |

37A. Victim services

(Report the number of victims/survivors from 33A and 33B who received Disability Program-funded services. Count each victim/survivor only once for each type of service that the victim received during the current reporting period; do not report the number of times that a service was provided to the victim. The total for each type of service should not be higher than , the total of 33A and 33B. Shelter services should be reported in question 37B. <u>Do not report secondary victims receiving services in this question.</u>)

| Type of service | Number of victims/survivors served |
|---|--|
| Case management | |
| Civil legal advocacy/court accompaniment (Assisting a victim/survivor with civil legal issues, including preparing paperwork for a protection order and accompanying victim/survivor to a protection order hearing, administrative hearing, or other civil court proceeding. Does not include advocacy by attorneys and/or paralegals.) | |

| Other (specify): | |

37B. Shelter services

(Report the number of victims/survivors and accompanying family members who received emergency shelter and/or transitional housing provided with Disability Program funds during the current reporting period. This should be an unduplicated count for both victims/survivors and for family members. This means that each victim/survivor and each family member who received shelter services during the current reporting period should be counted only once. Report the total number of bed nights provided in emergency shelter and/or transitional housing to victims/survivors and family members. The number of bed nights is computed by multiplying the number of victims and family members by the number of nights they stayed in the shelter. The number of bed nights will typically be significantly higher than the number of victims and family members. For example, one victim and her three children all stayed in the shelter for 10 nights. The number of bed nights would be 4 x 10, or 40.)

| Shelter service | Number of victims/ survivors | Number of family members | Number of bed nights |
|----------------------|---------------------------------|-----------------------------|-------------------------|
| Emergency shelter | | | |
| Transitional housing | | | |

37C. Hotline calls

(Report the number of hotline calls received from primary victims, and the total number of hotline calls received, on phone lines paid for with Disability Program funds or answered by Disability Program-funded staff, during the current reporting period. Victims/survivors whose calls are reported here should <u>not</u> be reported as victims served in question 33 unless they also received at least one of the services listed in question 37A Victim services or question 37B Shelter services. Victims/survivors who receive services such as crisis intervention or victim advocacy over the telephone, in addition to basic hotline information and/or referrals, should also be reported in question 37A. Hotline calls that include victim advocacy or crisis intervention services are those that require more time than the average call and involve a more intensive focus on the immediate needs and situation of the victim. For examples of when to report only the hotline call and when to report both the hotline call and a service or services in question 37A, see separate instructions.)

| Type of service | Number of calls from victims/survivors | Total number of calls |
|--|---|--------------------------|
| Hotline calls (crisis or information and referral calls received by an agency's hotline or office telephone) | | |

37D. Victim-witness notification/outreach to victims/survivors

(Report the number of <u>unsolicited</u> letters, phone calls, or visits to victims/survivors of specific incidents of sexual assault, domestic violence, dating violence, and/or stalking identified in police reports or court documents, informing them of services and/or providing information about the criminal justice system. Victims who are the recipients of these notification/outreach activities should <u>not</u> be reported as victims served in question 33 unless they also received at least one of the services reported in question 37A Victim services or question 37B Shelter services. Victims who receive services such as criminal justice advocacy over the telephone should be reported in question 37A.)

39. (Optional) Additional information

(Use the space below to discuss the effectiveness of victim services funded or supported by your Disability Program grant and to provide any additional information you would like to share about your victim services activities beyond what you have provided in the data above. An example might include that your agency, as a result of Disability Program funding, was able to provide medical accompaniment to an increased percentage of sexual assault survivors. This resulted in a higher percentage of victims also seeking additional support services.) (Maximum - 2000 characters)

NARRATIVE

All grantees must answer question 40.

Please limit your responses to the space provided.

40. Report on the status of your Disability Program grant goals and objectives for the current reporting period.

(Report on the status of the goals and objectives for your Disability Program grant as of the end of the current reporting period, as they were identified in your grant proposal, or as they have been added or revised. Indicate whether the activities related to your objectives for the current reporting period have been completed, are in progress, are delayed, or have been revised. Comment on your successes and challenges, and provide any additional explanation you feel is necessary for us to understand what you have or have not accomplished relative to your goals and objectives. If you have not accomplished objectives that should have been accomplished during the current reporting period, you must provide an explanation.)

All grantees must answer questions 41 and 42 on an annual basis. Submit this information on the January to June reporting form only.

Please limit your responses to the space provided. (8,000 characters)

41. What do you see as the most significant areas of remaining need, with regard to obstacles faced by individuals with disabilities?

42. What has Disability Program funding allowed you to do that you could not do prior to receiving this funding?

(For example, we were able to train all victim service agencies in the state on the use of TTYs.)

Questions 43 and 44 are optional.

Please limit your responses to the space provided. (8,000 characters)

43. Provide any additional information that you would like us to know about your Disability Program grant and/or the effectiveness of your grant.

(If you have other data or information regarding the effectiveness of your Disability Program grant that would more fully or accurately reflect your grant activities than the data you have been asked to provide on this form, answer this question. If you have not already done so elsewhere on this form, you may want to report on changes in accessibility of services for victims/survivors with disabilities; development, revision, or implementation of policies in your own agency; the sustainability of the grant activities; and/or positive or negative unintended consequences, i.e. changed grantee's own policies.)

44. Provide any additional information that you would like us to know about the data submitted.

(If you have information that could be helpful in understanding the data you have submitted in this report, please answer this question. For example, if you submitted two different progress reports for the same reporting period, you may explain how the data was apportioned to each report; or if your Disability Program funds supported staffe.g., victim advocates, law enforcement officers, etc. - but you did not report any corresponding victim services or law enforcement activities, you may explain why; or if you did not use program funds to support either staff or activities during the reporting period, please explain how program funds were used, if you have not already done so.)
