SEMI-ANNUAL PROGRESS REPORT FOR

**Education, Training, and Enhanced Services to End
Violence Against and Abuse of Women with Disabilities**

Brief Instructions: This form must be completed for each Education, Training, and Enhanced Services to End Violence Against and Abuse of Women with Disabilities (Disability Program) grant received. The grant administrator or coordinator must ensure that the form is completed fully with regard to all grant-funded activities. Grant partners, however, may complete sections relevant to their portion of the grant. Grant administrators or coordinators are responsible for compiling and submitting a single report that reflects all information collected from grant partners.

All grantees should read each section to determine which questions they must answer based on the activities supported under this grant during the current reporting period. Sections B and E and subsection A1 of this form must be completed by all grantees. In section D and subsections A2 and C1-C7, grantees must answer an initial question about whether they engaged in certain activities during the current reporting period. If the response is yes, then the grantee must complete the rest of that section or subsection. If the response is no, the rest of that section or subsection is skipped.

The activities of volunteers or interns should be reported if they were coordinated or supervised by Disability Program-funded staff or if Disability Program funds substantially supported their activities.

For further information on filling out this form, refer to the separate instructions, which contain detailed definitions and examples, illustrating how questions should be answered.

☐ No - skip to section E

33. Number of victims/survivors served, partially served, and victims/survivors seeking services who were not served

Please do not answer this question without referring to the separate instructions for further explanation and examples of how to distinguish among these categories. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each victim/survivor who was seeking or who received services during the current reporting period should be counted only once in that reporting period. For purposes of this question, victims/survivors are those against whom the sexual assault, domestic violence, dating violence, and/or stalking was directed. If the victim/survivor experienced more than one victimization, that person should be counted only once under the primary victimization. Do not report secondary victims here.)

35. Demographics of victims/survivors served or partially served

(Based on the victims/survivors reported in 33A and 33B, report the total numbers for all that apply. Because victims/survivors may identify in more than one category of race/ethnicity, the total for Race/Ethnicity may exceed the total number of victims/survivors reported in 33A and 33B. However, the total number of victims/survivors reported under Race/ethnicity should not be less than the total number of victims/survivors reported in 33A and 33B. The total number of victims/survivors reported under "Gender" and the total number reported under "Age" should equal the total number of victims/survivors reported in 33A and 33B. 37B. Shelter services

(Report the number of victims/survivors and accompanying family members who received emergency shelter and/or transitional housing provided with Disability Program funds during the current reporting period. This means that each victim/survivor and each family member who received shelter services during the current reporting period should be counted only once. Report the total number of bed nights provided in emergency shelter and/or transitional housing to victims/survivors and family members. The number of bed nights is computed by multiplying the number of victims and family members by the number of nights they stayed in the shelter. The number of bed nights will typically be significantly higher than the number of victims and family members. For example, one victim and her three children all stayed in the shelter for 10 nights. The number of bed nights would be 4 x 10, or 40.)

Victims/survivors who receive services such as crisis intervention or victim advocacy over the telephone, in addition to basic hotline information and/or referrals, should also be reported in question 37A. Hotline calls that include victim advocacy or crisis intervention services are those that require more time than the average call and involve a more intensive focus on the immediate needs and situation of the victim. For examples of when to report only the hotline call and when to report both the hotline call and a service or services in question 37A, see separate instructions.)
