**Semi-Annual Performance Report for the
Rural Domestic Violence, Dating Violence, Sexual Assault, and Stalking
Program**

Brief Instructions

This reporting tool details the Semi-Annual Performance Report questions for the Rural Domestic Violence, Dating Violence, Sexual Assault, and Stalking Program (Rural Program). A report must be completed for each grant received. Grant partners may complete sections relevant to their portion of the grant. Grant administrators and coordinators are responsible for compiling and submitting a single report that reflects all information collected from grant partners.

All grantees must complete the required sections. Required questions are marked with an asterisk (*). For all other sections, grantees must answer an initial question about whether they used Rural Program funds to support certain activities during the current reporting period. If the response is yes, then the grantee must complete that section. If the response is no, the rest of that section is skipped.

The activities of volunteers or interns should be reported if they were coordinated or supervised by Rural Program-funded staff or if Rural Program funds substantially supported their activities.

For further information on filling out this report, refer to the separate instructions, which contain detailed definitions and examples.

Public Reporting Burden

Paperwork Reduction Act Notice. Under the Paperwork Reduction Act, a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. We try to create forms and instructions that are accurate, can be easily understood, and which impose the least possible burden on you to provide us with information. The estimated average time to complete and file this form is 60 minutes per form. If you have comments regarding the accuracy of this estimate, or suggestions for making this form simpler, you can write to the Office on Violence Against Women, U.S. Department of Justice, 145 N Street NE, Washington, DC 20530.

The term “gender” was changed to “sex,” and the available responsive categories were limited to “male” and “female.” Grantees should report the data that is relevant to those categories in those categories. Grantees should not report data for victims for whom sex is unknown. The total number of victims reported in this section must be less than or equal to the total number of victims served and partially served. The first column "Number of victims/survivors served" is an unduplicated count of the number of victims/survivors who received each type of grant-funded service. No individual service category should have a number of victims served greater than the total number of victims served and partially served.

The second column "Number of times service was provided" is a total of the number of times each victim in the first column received that services type during the 6-month reporting period.

2. Disposition of criminal cases

Report the dispositions of cases resolved using Rural Program funds during the current reporting period. A case should be characterized by the most serious charge (may include numerous charges or counts). In most instances, a case will refer to one victim, one offender, and one incident.

Misdemeanor and felony domestic violence cases include any assaults, battery, vandalism, or other offenses that occurred in a domestic violence incident. Your state law or tribal code does not have to name the offense "domestic violence" for it to be counted here. Similarly, sexual assault and stalking cases should be counted under the appropriate sexual assault or stalking offense listed below (e.g., felony sexual assault), even if your state law uses another name for these types of offenses, such as "sexual battery" or "harassment."
