

TFAV Program Reporting Instructions

The Violence Against Women Act of 2000 requires grantees to report on the effectiveness of activities carried out with grant funds. To meet this Congressional reporting requirement and the requirements of the Government Performance and Results Act, the Office on Violence Against Women (OVW) requires all grantees to report data related to their OVW funded activities. Grantees should answer questions based on the activities engaged in under this grant during the current reporting period.

This document details the Semi-Annual Performance Report questions and instructions for the Tribal Financial Assistance Program. The performance report is due to OVW in JustGrants within 30 days of the end of the current reporting period (for the period ending June 30, the deadline is July 30; for the period ending December 30, the deadline is January 30). The performance report data will first be entered by the grantee into an online, interactive performance reporting form in the VAWA IMPACT Tool. Once the report has been completed online, the tool will generate a PDF for the grantee to download and submit into JustGrants.

All grantees should read each section to determine which questions must be answered based on the activities engaged in under the grant during the current reporting period. Optional sections begin with a question that asks if Tribal Financial Assistance Program funds were used to support the respective activities during the current reporting period. If grant funds were not used for an activity during the 6-month reporting period, the grantee should select “no.” If the response is no, the rest of that section or subsection is skipped.

All information should reflect activities for the current reporting period only. The activities of volunteers or interns may be reported if they are coordinated or supervised by Tribal Financial Assistance Program grant-funded staff or if Tribal Financial Assistance Program funds substantially support their activities. If a grantee has not been able to collect or report data as requested on the performance reporting form, please discuss this in the last question within the Narrative section.

If you have any questions about the performance report, call, email or visit the website of the VAWA Measuring Effectiveness Initiative (VAWA MEI).

- **VAWA MEI phone:** 1-800-922-8292
- **VAWA MEI email:** vawamei@maine.edu
- **Website:** vawamei.org

If you have questions about your grant, please contact your OVW program specialist at 1-202-307-6026 (TTY: 202-307-2277).

If you have questions about your JustGrants account, please contact JustGrants.

- **JustGrants OVW Support phone:** 866-655-4482
- **JustGrants OVW support email:** OVW.JustGrantsSupport@usdoj.gov
- **JustGrants Support website:** <https://justicegrants.usdoj.gov/user-support>

General Information

This section is required. All grantees must complete this section.

1. Date of report

Enter the date this form is completed.

2. Current reporting period (6-month)

Select either "January to June" or "July to December" based on the reporting period for which this report is being completed.

Current reporting period year (4-digit year)

Enter the year for the 6-month reporting period being covered.

A new reporting form must be filled out for each reporting period.

3. Grantee name

Enter the "Entity Legal Name" and "Doing Business As" name (if different) that can be found at the top of your JustGrants Funded Award Page.

EXAMPLE:

University of Maine System dba Cutler Institute

4. Grant number

Enter the federal grant number assigned to your OVW program grant. This number can be found at the top of your JustGrants Funded Award Page.

This number, also called your Award Number, can be found at the top of your JustGrants Funded Award Page. Please enter the grant number exactly as it appears, including dashes.

Examples: 15JOVW-12-GG-12345-PROG or 2000-XX-ZZ-1234

If you have multiple active OVW program grants, please enter the grant number associated with the Program grant you are reporting on in this form.

5. Type of performance report

Indicate if this is a regular performance report or the final performance report for the grant award being reported on.

6. Point of contact

Provide the name, agency name, mailing address, telephone number, and e-mail address for the contact person responsible for the day-to-day coordination of the grant. This person should understand what the grant funds were used for and should be familiar with the performance reporting information submitted.

7. Is this a faith-based organization?

Indicate whether the grantee is a faith-based organization.

8. Is this a culturally-specific community-based organization?

Indicate whether the grantee is a culturally-specific community-based organization. A culturally-specific community-based organization is one that:

- Has a focus on any underserved population, i.e., has as its primary mission to address the needs of an underserved population or has developed a special expertise regarding a particular underserved population;
- Is not merely providing services to an underserved population, but is providing culturally competent services designed to meet the specific needs of that population;
- At a minimum, has some expertise or demonstrated capacity to work effectively on domestic violence, dating violence, sexual assault, or stalking or acquires that expertise through collaboration with another entity.

9. Does this grant specifically address and focus on Tribal populations?

Select “yes” if the Tribal Financial Assistance Program grant specifically focuses on Tribal populations and indicate which tribes or nations the grantee agency serves or intends to serve. Report only on tribes or nations intentionally served. Do not include a tribe or nation if they are served incidentally by the program.

EXAMPLE 1:

A victim services organization is located on the Nez Perce reservation. There are members of over a dozen other tribes living on the reservation, and the grantee provides services to anyone who lives on the reservation that needs services. Select “yes” and report that the grant specifically addresses and focuses on the Nez Perce tribe, but do not report other tribes whose members reside on the reservation.

EXAMPLE 2:

A grantee agency used Tribal Financial Assistance Program funds to provide training events for law enforcement in a non-Tribal area. Police from a nearby reservation attend a training event. This training did not address Tribal codes, nor was there an intention to specifically train Tribal police, even though they are welcome to attend the training. Select “no” because the grant does not specifically address or focus on Tribal populations, even though Tribal populations are welcome to attend Tribal Financial Assistance Program-funded activities offered.

10. Does your grant support the creation of products in languages other than English or provide services in languages other than English?

Select “yes” if the agency used Tribal Financial Assistance Program funds to provide services or products in languages other than English. Selecting “yes” will prompt the grantee to list out any languages. Please be specific and name the relevant languages. Select “no” if the agency does not use Tribal Financial Assistance Program funds to provide services or products in languages other than English.

11. What percentage of your Tribal Financial Assistance Program grant was directed to each of these areas?

Report the area(s) addressed by the Tribal Financial Assistance Program grant during the current reporting period and estimate the approximate percentage of funds (or resources)

committed to each area. This question is required even if the grantee was not able to spend grant funds during the reporting period. The grantee may choose how to calculate this. Grantees should consider training, staff time, victims services, etc. when determining how to calculate the percentage of funds directed to each area.

EXAMPLE:

A victim services agency receives Tribal Financial Assistance Program funding to offer legal advocacy services for victims/survivors of sexual assault and domestic violence. During the current reporting period approximately 25% of the Tribal Financial Assistance Program-funded clients are sexual assault victims/survivors and the rest are victims/survivors of domestic violence. If all services received are approximately the same to all clients, one could estimate that approximately 25% of the project's funds are directed to sexual assault and 75% to domestic violence. If the services received by domestic violence victims/survivors are more comprehensive than those received by sexual assault victims/survivors, the percentage of funds directed to domestic violence would be greater.

DEFINITION: Victimization categories

- **Sexual assault:** Any nonconsensual sexual act proscribed by Federal, Tribal, or State law, including when the victim lacks capacity to consent.
- **Domestic violence:** Includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of the jurisdiction and includes the use or attempted use of physical abuse or sexual abuse, or a pattern of any other coercive behavior committed, enabled, or solicited to gain or maintain power and control over a victim, including verbal, psychological, economic, or technological abuse that may or may not constitute criminal behavior, by a person who is a current or former spouse or intimate partner of the victim, or person similarly situated to a spouse of the victim, is cohabitating, or has cohabitated, with the victim as a spouse or intimate partner, shares a child in common with the victim or who commits acts against a youth or adult victim who is protected from those acts under the family or domestic violence laws of the jurisdiction.
- **Dating violence:** Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined by the length of the relationship, the type of relationship, and the frequency of interaction between the people involved in the relationship.
- **Stalking:** A course of conduct directed at a specific person that would cause a reasonable person to fear for their safety or the safety of others or suffer substantial emotional distress.
- **Sex trafficking:** The recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act. Causing a person who has not attained the age of 18 years to engage in a commercial sex act regardless of consent.

Staff

1. Were Tribal Financial Assistance Program funds used to fund staff time (at your agency, at a partner agency, contractors, or stipends) during the current reporting period?

Select “yes” if Tribal Financial Assistance Program funds were used to pay for staff salary/wages. Tribal Financial Assistance Program-funded staff may be located at an agency other than the grantee agency. Also consider all stipends and contracted staff.

2. Staff

Report the number of full-time equivalent (FTE) staff funded under this grant during the current reporting period. Report staff by function(s) performed, not by title or location. Include employees who are part-time and/or only partially funded with these grant funds as well as consultants/contractors. FTEs are reported in decimals, not as percentages.

Report grant-funded overtime. If an employee or contractor was employed or utilized for only a portion of the reporting period, prorate appropriately. If staff members fall into two or more categories of job descriptions, divide their time as appropriate. One FTE is equal to 1,040 hours—40 hours per week multiplied by 26 weeks.

What is an FTE?

An FTE (full-time equivalent) is the unit of measurement used to report the hours worked by Tribal Financial Assistance Program-funded staff. A 100% Tribal Financial Assistance Program-funded staff person who worked full time for the entire 6-month reporting period will be reported as 1.00 FTE.

Prorating FTEs

FTEs must be prorated whenever grant funds paid for a portion of a staff person’s time, a contractor, stipend, and when staff are hired partway through the reporting period. Any staff time that represents less than a full-time person working the entire reporting period and paid entirely with Tribal Financial Assistance Program funds should be prorated to reflect the portion directly supported with Tribal Financial Assistance Program funds.

What is 1.00 FTE at your agency?

If the Tribal Financial Assistance Program-funded agency considers 40 hours per week to be full-time, then 1.00 FTE is equal to 1,040 working hours in a 6-month reporting period: 40 hours per week multiplied by 26 weeks. If the grantee agency considers something other than 40 hours to be full-time, determine how many hours per week is considered full-time and multiply that number of hours by 26 weeks. This will be the total number of hours in a 6-month reporting period for 1.00 FTE.

EXAMPLE 1:

If the Tribal Financial Assistance Program-funded agency considers 35 hours per week to be full-time, then 1.00 FTE is equal to 910 working hours in a 6-month reporting period: 35 hours per week multiplied by 26 weeks.

EXAMPLE 2:

If the Tribal Financial Assistance Program-funded agency considers 37.5 hours per week

to be full-time, then 1.00 FTE is equal to 975 working hours in a 6-month reporting period: 37.5 hours per week multiplied by 26 weeks.

FTE Calculation Examples

EXAMPLE 1:

If you have one full-time receptionist whose salary is 100% funded with Tribal Financial Assistance Program funds and a full-time bookkeeper whose salary is 25% funded with Tribal Financial Assistance Program funds, report 1.25 FTE.

EXAMPLE 2:

A staff member, whose salary is 100% funded with Tribal Financial Assistance Program funds, spends approximately 20 hours a week coordinating the victim services program, 16 hours providing victim advocacy, and 4 hours collecting and analyzing evaluation data. Report 1 FTE for them as their time spent adds up to 40 hours a week.

EXAMPLE 3:

During the six-month reporting period, an employee was hired to work full-time and worked only during the last three months of the reporting period. In this case, you would need to pro-rate the FTEs to reflect three months of the six-month reporting period. The correct FTE for that staff person would be 0.50 FTEs, or 3 months/6months.

EXAMPLE 4:

If you contracted with an information technology specialist for full-time services for two months during the reporting period, report that person's time as 0.33 FTEs, or 2 months/6 months.

EXAMPLE 5:

A staff member works 20 hours a week. The staff member spends 10 hours a week coordinating the victim services program, and 10 hours providing victim advocacy. Report this as 0.5 FTE for 20 hours a week worked.

3. Please describe how staffing impacted your ability to implement your grant-funded activities.

Use the space to discuss all the ways in which this question applies to your agency's program-funded activities. Staffing issues may include but are not limited to vacancies or unfilled positions, extended leaves or absences, high turnover or staff resignations, delays in recruitment and hiring, lack of trained or qualified staff, and reductions in staffing due to budget shortfalls that made it challenging to implement grant-funded activities. Conversely, staffing may have positively impacted your ability to serve more victims, expand outreach programs, or train more professionals.

Responses must be limited to 2,000 characters.

Policies

1. Were Tribal Financial Assistance Program funds used to develop, substantially revise, or implement policies or protocols or to develop or promote State, local, or Tribal policies during the current reporting period?

If Tribal Financial Assistance Program funds were used to developed, substantially revise, and/or implement policies or protocols, or to develop or promoted State, local, or Tribal policies during the current reporting period, select “yes.” This includes if Tribal Financial Assistance Program-funded staff worked directly on these activities.

2. Type of organizations/agencies in which policies or protocols were developed, substantially revised, or implemented

Check all the organizations/agencies in which policies or protocols were developed, substantially revised, or implemented using Tribal Financial Assistance Program funds during the current reporting period.

3. Describe the protocols and/or policies developed, substantially revised, or implemented with Tribal Financial Assistance Program funds during the current reporting period. (Maximum-2000 characters)

Some examples of topics that could be addressed here include:

- What successes and challenges/barriers have the grantee experienced when developing, revising, or implementing policies/protocols?
- What systemic issues are being addressed with the newly developed, revised, or implemented policies/protocols?

Responses must be limited to 2,000 characters.

Victim Services

In this section, only provide information that represents victims who accepted and/or requested Tribal Financial Assistance Program-funded services during the 6-month reporting period. Victim services are typically provided by Tribal Financial Assistance Program-funded staff or are services that grant funds directly paid for. Report all Tribal Financial Assistance Program-funded victim services provided, including services provided by legal services agencies, victim services agencies, or by staff providing victim services within the law enforcement, prosecution, or court system. Do not report on activities performed by law enforcement officers or prosecutors in this section.

If funds are used to support Tribal Financial Assistance Program-funded paralegals or attorneys, report the victims that accepted and/or requested Tribal Financial Assistance Program-funded legal services in the Victim Services Section and then report the legal services they received in the Legal Services Section.

1. Were Tribal Financial Assistance Program funds used to provide victim services (including legal services provided by an attorney or paralegal) during the current reporting period?

Select “yes” if Tribal Financial Assistance Program funds were used to support victim services during the current reporting period. If the grantee funded a victim assistant or victim-witness coordinator within the law enforcement, prosecution, or court system, select “yes” and complete the Victim Services Section to capture that staff’s Tribal Financial Assistance Program-funded work.

2. Number of primary victims served, partially served, and not served

Report the number of victims who were served, partially served, and not served with Tribal Financial Assistance Program funds during the current reporting period. Report an unduplicated count. This means that each victim who requested or received services during the current reporting period should be counted only once in that reporting period. Report victims in each reporting period that they request services. Do not report secondary victims in this question.

DEFINITION: Served, Partially Served, and Not Served

When determining how to report a victim, consider their choice in accepting or receiving a Tribal Financial Assistance Program-funded service.

- **Served:** A victim/survivor should be reported as served if they requested and/or accepted grant-funded services and the program was able to provide all of those services.
- **Partially Served:** A victim/survivor should be reported as partially served if they accepted and/or requested grant-funded services and the program was able to provide some, but not all, of those services.
- **Not Served:** A victim/survivor should be reported as not served if the program could not provide any of the grant-funded services that the victim accepted and/or requested.

DEFINITION:

- **Primary victim:** The sexual assault, domestic violence, dating violence, or stalking was experienced by the primary victim.
- **Presenting victimization:** Victims should be counted only once under the presenting victimization. Some victims may have experienced more than one type of victimization, and it may be clear which of those victimizations has led the victim to accept and/or request Tribal Financial Assistance Program-funded services. When it is not clear which victimization type has led the victim to accept/request Tribal Financial Assistance Program-funded support services, the grantee/service provider should use their discretion to select which victimization will be considered the presenting victimization for the purposes of this reporting form.
- **Unduplicated count:** Each victim who requested or received Tribal Financial Assistance Program-funded services during the current reporting period should be counted only once in Victim Services Question 2 (regardless of how many different times they were served during the reporting period). It is possible for a victim to be fully served at one point during the reporting period and then have their status change to partially served due to requesting additional services that they only partially received.

EXAMPLE:

A victim requested criminal justice advocacy from the Tribal Financial Assistance Program-funded victim advocate at the beginning of the reporting period, and then the same victim came back at the end of the reporting period and requested legal assistance from the Tribal Financial Assistance Program-funded attorney. The grantee was able to provide both services. Although this victim received two different Tribal Financial Assistance Program-funded services, the grantee will only count that victim once as served in Victim Services Question 2.

The partially served and not served categories generally have to do with issues within your program that keep you from providing grant-funded services to a victim/survivor who requests those services. If a victim/survivor chooses to discontinue services once they have begun receiving them, then the victim should be reported as “served.” The same is true if a victim/survivor moves, even if they do not inform you, and they are unable to complete the services. When determining whether a victim/survivor is served, partially served, or not served, do not consider services the victim/survivor declined, unless the victim requested a service but found the program rules unacceptable.

When are victims not counted on the form?

Do not report a victim on this form if they:

- Did not request or accept any Tribal Financial Assistance Program-funded services that they were offered/were eligible to receive;
 - Only accepted and/or requested services that were funded by a different funding stream; or
- Are not a primary victim of sexual assault, domestic violence, dating violence, or stalking.

EXAMPLE: Served

A victim of domestic violence called a victim services program looking for help with getting a protection order. The Tribal Financial Assistance Program-funded legal advocate helped the victim with the paperwork and the filing process, and then also accompanied the victim to the protection order hearing. Report this victim as “served” because the victim received all the Tribal Financial Assistance Program-funded services they requested.

EXAMPLE: Partially Served

A victim of stalking came to the prosecutor’s office to get information about the criminal process. The Tribal Financial Assistance Program-funded advocate spent time with the victim to explain what the victim could expect when filing for a protection order and to describe the different hearings that would take place. The victim asked the advocate to go to the arraignment with her, but the advocate was already scheduled to be in another courtroom on the date. The advocate referred the victim to a different victim services agency. The victim received information from the Tribal Financial Assistance Program-funded advocate, but not the grant-funded court accompaniment she requested that are normally provided under the Tribal Financial Assistance Program grant. Report this victim of stalking as “partially served” because the victim received some, but not all, of the Tribal Financial Assistance Program-funded services they requested.

EXAMPLE: Not Served

A police officer responded to a sexual assault incident and the victim agreed to allow the police officer to ask the local agency to send an advocate to the hospital with the victim during her examination. Hospital accompaniment is a service provided by the Tribal Financial Assistance Program grant. There was not an advocate available at the time requested, so the agency referred the victim to another agency. This would be reported as one victim of sexual assault “not served” because the victim did not receive the Tribal Financial Assistance Program-funded service requested.

EXAMPLE: When someone should not be reported

A Tribal Financial Assistance Program-funded outreach worker sent out letters to 175 victims of domestic violence based on police reports of domestic violence incidents. These letters were sent to inform victims of services available at the agency. Of the 175 victims contacted through this unsolicited outreach, 35 victims contacted the agency to request Tribal Financial Assistance Program-funded services. Report the 35 victims who requested Tribal Financial Assistance Program-funded services in Victim Services Question 2. Do not report on the other 140 victims in this question because they did not accept/request a Tribal Financial Assistance Program-funded service.

3. Number of victims who received Tribal Financial Assistance Program-funded services for multiple victimizations

Report an unduplicated count of victims reported in the previous question who received Tribal Financial Assistance Program-funded support for more than one victimization.

4. Select all the additional victimization types, including specific forms of abuse,

for which these victims received Tribal Financial Assistance Program-funded services

Check all that apply. If you have reported at least one victim in Question 3, you must check at least one box in Question 4. This applies regardless of when the additional victimization happened, so long as the victim received grant-funded services for it during the current reporting period.

DEFINITION: Additional victimization types

- **Sexual assault:** Any nonconsensual sexual act proscribed by Federal, Tribal, or State law, including when the victim lacks capacity to consent.
- **Domestic violence:** Includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of the jurisdiction and includes the use or attempted use of physical abuse or sexual abuse, or a pattern of any other coercive behavior committed, enabled, or solicited to gain or maintain power and control over a victim, including verbal, psychological, economic, or technological abuse that may or may not constitute criminal behavior, by a person who is a current or former spouse or intimate partner of the victim, or person similarly situated to a spouse of the victim, is cohabitating, or has cohabitated, with the victim as a spouse or intimate partner, shares a child in common with the victim or who commits acts against a youth or adult victim who is protected from those acts under the family or domestic violence laws of the jurisdiction.
- **Dating violence:** Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined by the length of the relationship, the type of relationship, and the frequency of interaction between the people involved in the relationship.
- **Stalking:** A course of conduct directed at a specific person that would cause a reasonable person to fear for their safety or the safety of others or suffer substantial emotional distress.
- **Female genital mutilation/cutting (FGM/C):** FGM/C refers to procedures involving partial or total removal of female genitalia or other injury to female genital organs for any cultural, religious, or nontherapeutic purpose.
- **Adult survivor of child sexual abuse:** A victim who is a legal adult over the age of 18 at the time they seek support services because they suffered any nonconsensual sexual act proscribed by federal, Tribal, or state law when the victim lacked capacity to consent as a legal minor under the age of 18.
- **Sex Trafficking:** The recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act. Causing a person who has not attained the age of 18 years to engage in a commercial sex act regardless of consent.
- **Labor Trafficking:** The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, by force, fraud, or coercion for the

purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

- **Economic abuse:** Within the context of domestic, dating violence, and abuse in later life is behavior that is coercive, deceptive, or unreasonably controls or restrains a person's ability to acquire, use, or maintain economic resources to which they are entitled. This includes using coercion, fraud, or manipulation to restrict a person's access to money, assets, credit, or financial information; unfairly using a person's personal economic resources, including money, assets, and credit for one's own advantage, or exerting undue influence over a person's financial and economic behavior or decisions, including forcing default on joint or other financial obligations, exploiting powers of attorney, guardianship, or conservatorship, or failing or neglecting to act in the best interests of a person to whom one has a fiduciary duty.
- **Technological abuse:** An act or pattern of behavior that occurs within domestic violence, sexual assault, dating violence or stalking and is intended to harm, threaten, control, stalk, harass, impersonate, exploit, extort, or monitor, except as otherwise permitted by law, another person that occurs using any form of technology, including but not limited to: internet enabled devices, online spaces and platforms, computers, mobile devices, cameras and imaging programs, apps, location tracking devices, or communication technologies, or any other emerging technologies.
- **Forced marriage:** A marriage to which one or both parties do not or cannot consent and in which one or more elements of force, fraud, or coercion is present. Forced marriage can be both a cause and a consequence of domestic violence, dating violence, sexual assault or stalking.

5. Describe how Tribal Financial Assistance Program funds were used to serve victims who received grant-funded services for multiple victimizations.

For example, this space could be used to describe the prevalence of co-occurring victimizations in the community or the comprehensive wrap-around services the grantee provided victims who disclosed multiple victimization types.

Responses must be limited to 2,000 characters.

6. Number of secondary victims served

Each secondary victim who received Tribal Financial Assistance Program-funded services during the current reporting period should be counted only once in the category of victimization that corresponds to the crime experienced by the primary victim they are connected to. Do not report these secondary victims anywhere else on this reporting form.

DEFINITION: Secondary Victims

Secondary victims are those who are indirectly affected by the domestic violence, dating violence, sexual assault, and/or stalking. They will be children, siblings, spouses or intimate partners, parents, grandparents, and other affected relatives.

EXAMPLE 1:

A victim of domestic violence entered a Tribal Financial Assistance Program-funded shelter with her three children. The grantee would report the victim of domestic

violence as “served” in Victim Services Question 2 because she received the Tribal Financial Assistance Program-funded service she requested. They would also report three children as secondary victims in Victim Services Question 6 because they received a Tribal Financial Assistance Program-funded service.

EXAMPLE 2:

A victim of stalking received assistance with obtaining a protection order from a Tribal Financial Assistance Program-funded attorney. The victim’s two children are not included on the protection order. Report the victim of stalking victims “served” in Victim Services Question 2 because she received the Tribal Financial Assistance Program-funded service she requested. Do not report the two children in Victim Services Question 6 because they did not receive a Tribal Financial Assistance Program-funded service.

7. Select all of the reasons primary victims who requested Tribal Financial Assistance Program-funded services were partially or not served

Indicate all programmatic reasons for partially served and not served victims. Reporting victims as partially served and not served does not reflect negatively on the agency. This information is being collected to identify unmet needs and barriers to service. OVW acknowledges that funded programs may not be able to serve all victims who request services.

DEFINITION: Reason Categories

- **Conflict of interest:** The program could not serve the victim because current or previous relationships with that victim or other parties related to that victim would interfere with the ability of the program to serve that victim. For example, a Tribal Financial Assistance Program-funded counselor declined to work with a victim because of a prior non-professional relationship with the victim.
- **Did not meet statutory requirements:** The program could not serve the victim with the Tribal Financial Assistance Program-funded service requested because the victim did not meet requirements of statute. For example, a victim requested help with a divorce, but did not meet statutory residency requirements to file for a divorce in the jurisdiction.
- **Hours of operation:** Hours during which the program provides services were not compatible with the hours the victim was available to receive requested services. For example, a victim was only available to receive counseling after 6pm due to their work schedule, but the program was closed after 5pm and could not provide the Tribal Financial Assistance Program-funded counseling requested.
- **Insufficient or lack of culturally specific services:** Services currently provided under the grant are not culturally specific for the victim. For example, a victim requested a counselor with a particular ethnic background to incorporate cultural practices into the counseling, but the program did not have a staff member to meet that request and referred the victim to another program to best meet the needs of the victim.
- **Insufficient or lack of agency capacity to provide language access (including sign**

language or assistive communication devices): Interpreter and/or translation services were not available when the victim requested to receive Tribal Financial Assistance Program-funded services.

- **Insufficient or lack of services for people with disabilities:** The Tribal Financial Assistance Program-funded services were not accessible to a victim with disabilities. For example, a Tribal Financial Assistance Program-funded shelter has a rule against care attendants accompanying victims, and this prevented a victim with disabilities from being able to receive the Tribal Financial Assistance Program-funded shelter services.
- **Insufficient or lack of services for people who are D/deaf or hard of hearing:** The services provided under the grant were not accessible to people who are D/deaf or hard of hearing.
- **Lack of childcare:** The victim was unable to receive requested Tribal Financial Assistance Program-funded services because they needed childcare to attend/receive the Tribal Financial Assistance Program-funded services but there was no childcare available.
- **Program reached capacity:** Program was operating at full capacity when a victim requested a Tribal Financial Assistance Program-funded service. This includes instances where Tribal Financial Assistance Program-funded staff caseloads were full and they could not accept additional clients, as well as instances when all available Tribal Financial Assistance Program-funded shelter services were at capacity when a victim requested shelter.
- **Program rules not acceptable to victim:** A victim was technically eligible to receive a Tribal Financial Assistance Program-funded service, but the victim was not willing to comply with rules of the program.
- **Program unable to provide service due to limited resources:** Limited resources may include situations where the Tribal Financial Assistance Program-funded activity was unavailable or entirely spent down. For example, the program had to turn down Tribal Financial Assistance Program-funded transportation requests because the budget for that type of service was maxed out for the reporting period.
- **Services inappropriate or inadequate for people with mental health issues:** Staff were not able, for any reason, to provide appropriate or adequate services for a victim with mental health problems. For example, the program did not have overnight staff, and the victim needed 24-hour supervision.
- **Services inappropriate or inadequate for people with substance abuse issues:** Staff were not able, for any reason, to provide appropriate or adequate services for a victim with substance abuse problems. For example, the Tribal Financial Assistance Program-funded staff were not trained in best-practices for supporting substance abuse issues in a clinical setting, and so a victim with substance abuse issues who was requesting Tribal Financial Assistance Program-funded services was referred to another agency.
- **Services otherwise not appropriate for victim:** For any reason, the program

determined that a Tribal Financial Assistance Program-funded service being requested by a victim was not appropriate for the victim, perhaps for clinical reasons or programmatic reasons.

- **Transportation:** The victim was unable to arrange for transportation to receive Tribal Financial Assistance Program-funded services. This includes situations in which public transportation is not available or could not be paid for with Tribal Financial Assistance Program funds.
- **Other:** Describe any other reason for not serving that is not captured above.

Examples of Inappropriate “Other” Reasons for Partially or Not Served Victims

Below are examples of responses in the “other” category that indicate the victim should have been reported in a different category or should not have been reported at all.

EXAMPLE 1: “Victim refused services”

This is an inappropriate “other” reason because it indicates that the victim chose not to request/accept Tribal Financial Assistance Program-funded services. Victim choice to request and/or accept Tribal Financial Assistance Program-funded services is one of the most important factors to consider whether or not to report them. If Tribal Financial Assistance Program-funded victim services staff offered services and the victim refused the services or did not respond to accept any Tribal Financial Assistance Program-funded services, **do not count** this victim at all in the Victim Services Section.

EXAMPLE 2: “Service was not provided by our program”

This is an inappropriate “other” reason because the form is only interested in collecting data about services that were funded by the Tribal Financial Assistance Program grant. Do not consider services that were funded by other sources. Only consider the program’s ability to provide the Tribal Financial Assistance Program-funded services that a victim chose to request and/or accept when determining if the victim should be counted as served, partially served, or not served.

- If a victim only requested/accepted services that are not funded by the Tribal Financial Assistance Program grant, **do not count** this victim at all in the Victim Services Section.
- If a victim requested/accepted a Tribal Financial Assistance Program-funded service and received that service, report this victim as **served**. This is regardless of any service the victim requested/accepted that was not funded by the Tribal Financial Assistance Program grant.

EXAMPLE 3: “Could not locate victim”

This is an inappropriate “other” reason because it indicates that the victim chose to stop accepting/engaging in Tribal Financial Assistance Program-funded services or that the victim chose not to accept/engage in Tribal Financial Assistance Program-funded services.

- If the victim accepted some grant-funded services and then stopped accepting/engaging in Tribal Financial Assistance Program-funded services, count this victim as **served**.
- If the victim indicated interest in accepting a Tribal Financial Assistance Program-

funded service but then never received any Tribal Financial Assistance Program-funded services because they chose not to attend scheduled services or they chose not to answer phone calls, **do**

not count this victim. The victim did not end up accepting Tribal Financial Assistance Program-funded services.

- If the victim was placed on a waiting list for a Tribal Financial Assistance Program-funded service they wanted to receive, and the program was not able to locate the victim at the time they would come off the waiting list (because the agency was then able to provide the service), report this victim as **not served**. Indicate “program reached capacity” in Victim Services Question 7 because the program was not able to provide the service when it was requested.

EXAMPLE 4: “Victim withdrew”

This is an inappropriate “other” reason because it indicates that the victim chose to stop accepting/engaging in Tribal Financial Assistance Program-funded services. Even though the agency might consider the services incomplete, the reporting form is asking about the victim’s choice to accept/receive Tribal Financial Assistance Program-funded services.

- If the victim received as much of the Tribal Financial Assistance Program-funded services as they wanted to accept, and then chose to withdraw from services, report this victim as served.
- If the victim initially indicated that they would accept/request Tribal Financial Assistance Program-funded services, went through an intake process, and then chose to withdraw their request for services, do not report this victim. The victim did not end up accepting Tribal Financial Assistance Program-funded services.

8. Describe why grant-funded services were not provided, including barriers/challenges your agency faced when providing Tribal Financial Assistance Program-funded services, and how those barriers impacted victims/survivors.

Responses must be limited to 2,000 characters.

9. Race/ethnicity

Report only on the victims reported as served and partially served. Do not report demographics for secondary victims.

Report victims in each category they identify as. At least one race/ethnicity must be reported for each victim reported as fully served and partially served. Those victims for whom race/ethnicity is not known should be reported in the “unknown” category. The total race/ethnicity reported must be equal to or greater than the number of victims reported as served and partially served.

10. Sex

Report only on the victims reported as served and partially served. Do not report demographics for secondary victims.

Report victims/survivors in each category that applies.

Due to [Presidential Executive Order 14168](#) and accompanying guidance from the Office on Management and Budget, OVW amended demographic questions as follows. The term “gender” was changed to “sex,” and the available responsive categories were limited to “male” and “female.” Grantees should report the data that is relevant to those categories in those categories. Grantees should not report data for victims for whom sex is unknown. The total number of victims reported in this section must be less than or equal to the total number of victims served and partially served. As always, victims do not have to share their demographic information to obtain services. Please direct any questions to OVW.Research@usdoj.gov.

11. Age

Report only on the victims reported as served and partially served. Do not report demographics for secondary victims.

Report the age of each victim reported as fully and partially served. Exactly one age must be reported for each victim reported as fully and partially served. Those victims for whom the age is not known should be reported in the “unknown” category. The total age reported must be equal to the number of victims reported as served and partially served.

12. Victim services

Based on the victims reported as served and partially served, report the number of primary victims who received Tribal Financial Assistance Program-funded services during the current reporting period. Count each victim only once for each type of service that the victim received under the “Number of victims served” column.

Under the “Number of times service was provided” column, report the total number of times victims received the Tribal Financial Assistance Program-funded service during the current reporting period. The total for each type of service under the “Number of victims served” column should not be higher than the total number of victims reported as served and partially served. Do not report secondary victims receiving services in this question. Legal assistance provided by a Tribal Financial Assistance Program-funded attorney or paralegal should be reported in the Legal Services Section.

DEFINITION: Victim services

- **Civil legal advocacy/court accompaniment:** Assisting a victim with civil legal issues, including preparing paperwork for protection orders; accompanying a victim to a protection order hearing or other civil proceeding; and all other advocacy within the civil justice system. This also includes accompanying a victim to an administrative hearing, such as unemployment, Social Security, TANF, or SNAP hearing.
- **Counseling services/support group:** Individual or group counseling or support provided by a volunteer, peer, or professional.
- **Criminal justice advocacy/court accompaniment:** Assisting a victim with criminal legal issues including notifying the victim of case status, hearing dates, plea agreements, and sentencing terms; preparing paperwork such as victim impact statements; accompanying a victim to a criminal court proceeding or law

enforcement interview; and all other advocacy within the criminal justice system.

- **Crisis intervention:** Process by which a person identifies, assesses, and intervenes with an individual in crisis to restore balance and reduce the effects of the crisis in their life. Report crisis intervention that occurs in person and/or over the telephone.
- **Culturally specific services:** Any services specifically designed to meet the cultural preferences/ideologies of the population of victims, including culturally-specific counseling/therapy, culturally-specific support groups etc.
- **Forensic exam:** A medical examination to collect and document evidence, evaluate and treat STDs and pregnancy, and refer victims to follow-up or medical care or counseling. Does not include accompanying the victim to a hospital, clinic, or medical office.
- **Hospital/clinic/medical response:** Accompanying a victim to, or meeting a victim at, a hospital, clinic, or medical office.
- **Language services:** Provision of interpretation and/or translation.
- **Transportation:** Provision of transportation, either directly or through bus passes, taxi fares, or other means of transportation
- **Victim/survivor advocacy:** Actions designed to help the victim obtain needed resources or services including employment, housing, shelter services, health care, victim's compensation, etc.
- **Other:** Services that are not covered in the above available categories. Tribal Financial Assistance Program-funded activities that might be reported in the "other" category include holistic services and supervised visitation/exchange services.

13. Hotline support, information, and referral

Report the number of hotline requests received from primary victims and the total number of hotline requests received on phone lines, text lines, or web-based communication paid for with Tribal Financial Assistance Program funds or answered by Tribal Financial Assistance Program-funded staff during the current reporting period. Do not report on agency-wide hotline requests. Hotline calls should not be reported as victims/survivors served or partially served unless they also received at least one of the services reported in Victim services questions.

Partially-funded hotline

If grant funds are supporting a portion or percentage of the hotline budget, prorate the total hotline requests to reflect only the percentage of the budget supported by the Tribal Financial Assistance Program funds.

EXAMPLE 1:

A victim texted the Tribal Financial Assistance Program-funded hotline seeking information/referrals. Report this as 1 hotline request from a victim and include this in the total requests. The victim would not be reported in any other questions.

EXAMPLE 2:

A parent of a victim messaged the Tribal Financial Assistance Program-funded hotline

and requested information about available services for their child. The hotline staff provided the parent with the information. This parent would be counted once under “Total number of requests.”

When are hotline requests from victims reported as primary victims who received Tribal Financial Assistance Program-funded support services?

If a victim reached out to the Tribal Financial Assistance Program-funded hotline and received Tribal Financial Assistance Program-funded services beyond a simple referral, report that victim as a primary victim served in Victim Services Question 2.

EXAMPLE:

A victim called the Tribal Financial Assistance Program-funded hotline and requested information on available resources. While on the phone, the victim also received crisis intervention and victim advocacy. Since this victim received Tribal Financial Assistance Program-funded services beyond a simple referral, report this victim as served in Victim Services Question 2.

14. Victim witness notification/unsolicited outreach to victims

Report the number of Tribal Financial Assistance Program-funded victim witness notification and unsolicited outreach activities during the current reporting period. These activities include informing victims of the available support services and/or providing information about the criminal justice system. For these activities, the Tribal Financial Assistance Program-funded agency is initiating the first contact with the victim. These victims might have been identified in police reports or court documents.

Victims who are the recipients of these notification/outreach activities should not be reported as victims served or partially served unless they also received at least one of the Tribal Financial Assistance Program-funded services reported in the victim services or shelter services questions. If a victim who received these unsolicited notification/outreach activities chooses to request and/or accept at least one Tribal Financial Assistance Program-funded service, then report that victim as a primary victim served in Victim Services Question 2.

EXAMPLE 1:

A Tribal Financial Assistance Program-funded outreach worker visited the homes of 10 victims during the current reporting period, providing them with information about available services. All ten victims choose not to accept or request any services. In this case, the program would only report 10 outreach activities in Victim Services Question 15. These victims would not be reported in any other questions because these victims did not accept any Tribal Financial Assistance Program-funded services.

EXAMPLE 2:

A local agency sent out 75 letters during the current reporting period to inform victims of services available to them and provide information about the criminal justice system. Of these victims, eight of them chose to request Tribal Financial Assistance Program-funded legal advocacy services at the agency. In this situation, the program would report 75 victims as receiving unsolicited outreach in Victim Services Question 15. The eight victims that requested Tribal Financial Assistance Program-funded services would also be reported in Victim Services Question 2 as victims who accepted and/or requested victim services.

15. Victim services staff assistance with protection orders

Report the total number of temporary and/or final protection orders granted that Tribal Financial Assistance Program-funded victim services staff helped victims during the current reporting period. Include all orders having the force of law that are designed to protect the victim from contact with the offender during the pendency of the order. They may be referred to as protection from abuse orders, protection from harassment or anti-harassment orders, restraining orders, no-contact orders, or stay-away orders, and they may be criminal or civil. Temporary orders are generally issued ex parte, meaning without a court hearing, for a short period of time (e.g., 30 days), and final orders are issued after a court hearing for a longer period of time (e.g., two years).

Do not report on the work of Tribal Financial Assistance Program-funded attorneys or paralegals in this question. If a Tribal Financial Assistance Program-funded attorney or paralegal assisted victims with obtaining protection orders, report those activities in the Legal Services Section.

16. Discuss the effectiveness of victim services supported by your Tribal Financial Assistance Program grant and provide any additional information you would like to share. (Maximum-2000 characters)

For example, this space could be used to describe the promising practices Tribal Financial Assistance Program-funded staff are implementing to respond to victims or how Tribal Financial Assistance Program funds have impacted the agency's capacity to provide services.

Responses must be limited to 2,000 characters.

Narrative

Never Include Personally Identifiable Information

When writing about the impact of funding and services, never include any information about victims/clients that would allow them to be identified. For example, never include a person's name, address, birth date, case numbers, or anything else in the performance report anywhere. Doing so would breach the person's rights to confidentiality and privacy.

How is narrative data used?

- **Monitoring:** Each OVW Program Specialist has the responsibility to track grantee's progress and compliance both financially and programmatically. Narrative data supports OVW in monitoring how funds were spent.
- **Understanding Numerical Data:** The narrative data grantees provide can give context and story to the numerical data reported. Narrative fields can be used to explain an increase or a decrease in a certain Tribal Financial Assistance Program-funded activity, or a staff vacancy. This can also allow VAWA MEI to identify possible misunderstandings in the numerical data and provide support and technical assistance.
- **Biennial Report to Congress:** OVW is required by statute to report to Congress on the use of VAWA funds. These reports to Congress include both aggregate numbers and highlights from narrative data. Quotes from narrative data help tell the story behind the numbers. These quotes can highlight successes, difficulties, barriers to providing services, and needs for policy and legislation.

1. Report on your Tribal Financial Assistance Program grant goals, objectives, and activities as of the end of the current reporting period.

This question is required.

Briefly report on the status of the goals and objectives as they were identified in your grant proposal or as they have been added or revised. Your goals and objectives should be those identified in your grant proposal or as revised. Indicate whether the activities related to your objectives for the current reporting period have been completed, are in progress, are delayed or have been revised. Comment on your successes and challenges and provide any additional explanation you feel is necessary for us to understand what you have or have not accomplished relative to your goals and objectives.

If you have not accomplished objectives that should have been accomplished during the current reporting period, you must provide an explanation.

EXAMPLE: Grant goals and objectives response

- **Status:** Delayed.
- **Objective:** Coordinate the sharing of information concerning domestic violence and sexual assault offenses on the reservation with local law enforcement agencies.
- **Activity:** Hire data specialist to create tracking system for sharing information
- **Comments:** We hired someone who left the position because of a family emergency six weeks after they were hired. We are interviewing new candidates and hope to have someone in the position by the next reporting period.

Responses must be limited to 100 characters for “Status,” 1,750 characters for “Objective,” 1,750 characters for “Activity,” and 500 characters for “Comments.”

2. What do you see as the most significant areas of remaining need, with regard to improving services to victims/survivors, increasing victims/survivors’ safety, and enhancing community response (including offender accountability)? (Maximum-8000 characters)

This question is required for the January-June reporting period.

Describe any significant remaining areas of need. Consider geographic regions, jurisdictional issues, service delivery systems, types of victimizations, and challenges and barriers unique to your service area.

Responses must be limited to 8,000 characters.

3. What has the Tribal Financial Assistance Program funding allowed you to do that you could not do prior to receiving this funding? (Maximum-8000 characters)

This question is required for the January-June reporting period.

Use this space to describe anything Tribal Financial Assistance Program funding has enabled the grantee to do that could not be done before receiving the grant funding.

Responses must be limited to 8,000 characters.

4. As you finalize your OVW award, please describe any lessons learned regarding the most effective approaches in implementing your project.

This question is required if this is your final report.

Share examples from cases or measurable impacts on response indicators.

5. Provide additional information regarding the effectiveness of your grant-funded program. (Maximum-8000 characters)

This question is optional and strongly encouraged.

Use this space to describe any topics such as promising practices the Tribal Financial Assistance Program-funded program used or relationship building among community partners.

Responses must be limited to 8,000 characters.

EXAMPLE:

“Our Tribal Financial Assistance Program-funded victim advocate served on a task force examining ways the criminal justice system could be more responsive to victims/survivors of sexual assault. As a result, a Sexual Assault Response Team was implemented on the reservation with protocols for forensic exams with a local hospital.”

6. Provide any additional information that may provide explanation about the

data submitted. (Maximum-8000 characters)

This question is optional.

If you have any information that could be helpful in understanding the data you have submitted in this report, please answer this question.

Responses must be limited to 8,000 characters.

EXAMPLE:

- If one agency submitted two different progress reports for the same reporting period, explain how the data was divided between the two reports;
- If the Tribal Financial Assistance Program-funded staff were not able to conduct the expected activities due to things such as illness, FMLA, or other extended leave;
- If the agency receiving funds did not use Tribal Financial Assistance Program funds to support staff or activities during the reporting period, please explain how the funds were used; or
- If the grantee was not able to obtain data to answer a required question.
